TO THE CITIZENS OF SOUTH CAROLINA. The termination of a sanguinary contest, which for the past four years has presented an impassible barrier to all social or commercial intercourse between the two great sections of our country, having at length happily cleared away all obstacles to a renewal of those relations which formerly bound us together in a fraternal union, I take the earliest opportunity afforded me by this auspleious event, to greet my Sonthern friends, and to solicit from them a renewal of that extensive. business connection which for a quarter of a century has been uninterrupted save by the great public calautity to which I have adverted. It is scarcely necessary, on the threshold of a business re-union, I should repeat the warning so often given to my friends, -to beware of all those spurious and deleterious compounds which, under the specious and false titles of Imported Wines, Brandies, Holland Gin, Liquors, &c., have been equally destructive to the health of our citizens as prejudicial to the interest of the legiti-

The latter, so long tested and approved by the medical Faculties of the United tates, West Indies and South America as an invaluable therapeutic, a wholesome, pleasant and perfect y sale beverage in all climates and during all seasons, quickly excited the cupidity of the home manfacturers and venders of a spurious article under the same name.

I trust that I have, after much toil and expense, surrounded all has importations with saleguards and directions which with ordinary eiremmspection will insure their delivery, gs I receive them from Europe, to all my customers, I would, however, recommend in all cases where it is possible, that orders be sent direct to my depot, 22 Beaver Street, New York, or that

pruchases be unde of my accredited agents. In addition to a large stock of Wines, Brandies, &c., I have a considerable supply of old tried foreign wines, embracing vintages of many years past, bottled up before the commencement of the war, which I can especially recommend to all connoisseurs of to ser reluxuries.

In conclusion, I would specially call the early attention of my Southern customers to the advantage to be derived by transmitting their orders without loss of time, or calling personally atthe depat, in order to insure the fulfilment of their orders out of the present large and well se-
